Experience

Rivi, Software Development Engineer - II
Aug 2021 - Current
Technologies: Node.js, Express.js, Typescript, Elixir, Phoenix, MongoDB, PostgreSql, Redis, Prometheus, Grafana, Docker, Kubernetes, Socket, React, Redux, Nextjs, Tailwindcss, AWS cognito, GCP, REST, microservcies

Rivi, Software Development Engineer
Aug 2020 - July 2021
Technologies: Node.js, Express.js, Typescript, Elixir, Phoenix, MongoDB, PostgreSql, Redis, Prometheus, Grafana, Docker, Kubernetes, Socket, React, Redux, Nextjs, Tailwindcss, AWS cognito, GCP, REST, microservcies

2020 Google Summer Of Code student w/ Java Pathfinder
May 2020 - August 2020
GSoC work report
Technologies: java, gradle, JUnit

Rivi, Backend Engineering Intern
Dec 2019 - July 2020
Technologies: Node.js, Express.js, MongoDB, PostgreSql, Redis, Pub/Sub, Rest, Prometheus, Grafana, Docker, Kubernetes

2019 Google Summer Of Code student w/ Java Pathfinder
May 2019 - August 2019
GSoC work report
Technologies: java, gradle, JUnit

Education

CHRIST UNIVERSITY, Bangalore, India
2016-2020,
B.Tech in Computer Science And Engineering.
CGPA: 8.8

Projects

Myra,
JIRA and Slack integration webhook server.
Technologies: Node.js

FoodEZ, July 2019 - Aug 2019
An online food ordering application with features like restaurant search, menu & rating, checkout, user authentication, payments etc.
Technologies: Node.js, Express.js, PostgreSQL, Elastic search, React.js, JS, HTML, CSS.
